REGULATIONS OF REPTILES GENETICS INFORMATION AND ITS IMPACT ON CONSERVATION AND ECOLOGY

Presented By: Hritik verma

1CSE26

UNIT _ 01

. Introduction: Meaning of Artificial Intelligence _✅

. Foundations of AI: Philosophy, Mathematics, Economics –✅

. Foundations of AI: Neuroscience, Psychology _✅

. Foundations of AI: Computer Engineering, Control Theory _✅

. Foundations of AI: Linguistics _✅

. History of AI, Risks and Benefits of AI _✅

02

UNIT

.Intelligent Agents: Agents and Environment _✅

.Nature of Environment and Agents _✅

.Problem Solving Agent _❌

.Search Problems and Solutions _✅

.Formulating Problems, Example Problems _❌

.Search Algorithms _❌

UNIT _ 03

.Knowledge Representation: Logical Representation, Propositional Logic _☑️

.First-order Logic, Resolution Method _❌

.Frames, Semantic Networks _❌

.Production Rules _❌

.Applications of AI: Intelligent Automation, Predictive Maintenance _☑️

.Applications of AI: Design Optimization, Personalized Solutions _☑️

04

UNIT_

.Introduction to Machine Learning _ ☑️

.Problem Types: Regression & Classification _☑️

.Types of Data, Feature Vectors & Target Variables _☑️

.Types of ML: Supervised, Unsupervised -☑️

.Semi-supervised, Reinforcement Learning _❌

.Machine Learning Pipeline _❌

Thank You
